Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1, 3-6	YES
	Claims		NO
Inventive step (IS)	Claims		YES
	Claims	1, 3-6	NO
Industrial applicability (IA)	Claims	1, 3-6	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)

Claims 1 and 3 to 6

Document 1 (JP 5-146943 A (Fanuc Ltd.)) cited in the international search report discloses the generation of a 1-spindle machining program, and document 2 (JP 2001-1230 A (Toyoda Machine Works, Ltd.)) cited in the international search report discloses the generation of a 2-spindle machining program, but neither document discloses a feature wherein either of two machining programs is selected depending on the tool to be controlled, nor is it made clear whether said programs are broken down into steps that can be carried out on a single tool. However, document 3 (JP 7-230391 A (Hitachi, Ltd.)) cited in the international search report discloses a feature wherein selection of a program from among a plurality of programs is made according to the apparatus in question, and document 4 (JP 58-178405 A (Toyoda Machine Works, Ltd.)) cited in the international search report discloses a feature wherein a program is broken down into steps that can be carried out on a single tool.

Accordingly, the inventions set forth in claims 1 and 3 to 6 do not involve an inventive step in the light of documents 1 to 4.
